Topic: DRS-10-2015: Disaster Resilience & Climate Change topic 2: Natural Hazards: Towards risk reduction science and innovation plans at national and European level

Project number: 700342

Project name: *Enhancing Synergies for disaster Prevention in the EurOpean Union*

Project acronym: ESPREssO

Start date: 01/05/2016　　　　　　　　　　　**Duration: 30 months**

Deliverable reference number and title:

D 4.6 - A web service based on the ADB to ensure a full access to the project members and stakeholders integrated within the project website

Version: FINAL

Due date of deliverable: 30.04.2017　Actual submission date: 30.06.2017

Type: Websites, patents filling. Etc.

The following organisations contributed to the work described in this deliverable:

Lead partner responsible for the deliverable:

AMRA

Deliverable prepared by:

Alfonso Rossi Filangieri

WP leader responsible for the deliverable:

AMRA

Deliverable reviewed by:

Giulio Zuccaro

Authorized by:

AMRA: Giulio Zuccaro

ABSTRACT

This deliverable describes the introduction, within the ESPREsso web site, of a web service based on the Action Database, in way to provide a direct link to the database, accessible at http://adb-espresso.brgm.fr/.

or via the official Espresso Website at:

http://www.espressoproject.eu/action-database/introduction.html

Keywords: website, ESPREssO, database

Acknowledgements

TABLE OF CONTENTS

1 INTRODUCTION

The Action Database has been introduced within WP4, a tool to collect and evaluate feedback from stakeholders in disaster risk reduction, climate change adaptation and cross border crisis management. The structure of this tool has been described in D4.1 and D4.3 and the web portal for stakeholders and other actors can be accessed through
http://adb-espresso.brgm.fr
or via the official Espresso Website at:

http://www.espressoproject.eu/action-database/introduction.html

The ESPREssO-ADB will be continuously improved aiming at becoming more and more performing, until it's final version within the deliverable 4.2.

2 THE ADB SECTION IN THE ESPRESSO WEB SITE

The official ESPREssO website has been designed to be a communication tool for the project partners and a way to disseminate the activity of the project.

To ensure the full access to the Action Database, ESPREssO web site has been updated in order to provide a direct connection with de ADB platform.

The toolbar has been integrated with a new section containing information on and description of the Action Database.

As illustrated in figure 1, in the initial toolbar (Objectives, Partners, WP, Events, Dissemination, Forum, Contacts) has been added a new section "**Action Database**".

When clicking on the drop-down "Action Database", you will notice two items:

- **Introduction**, containing a short description of the Action Database (see Figure 2)
- **How to**, containing the link to access to the ADB portal and providing a brief functional overview (see Figure 2)
